## EXPERIENCE

### [Cosmopolitan Travel Service](#), Dakar, VDN — *Front end developer, Consultant*

July 2018 - PRESENT

Working alongside with backend-developers that are making available API that the front-end team (and I) use to build nice UI/UX interfaces with very dynamic content for CTS stuff

### [Senegal Virtual University](#) — *Tuteur* — Introduction to Web and HTML/CSS/JS

January 2018

Answer to most common questions from fresh men and help them better understand what the context of web development. One of the main goal is also to make them love and be ready for modern development.

### [Sentel GSM \(TIGO\)](#), Almadies — *Front end/Back end Dev*

September 2017 - October 2017

Implementing a task runner with ASP.NET (first project with c-sharp). The objective was to create a human interface and allow the end user to call stocked procedure and job in SQL SERVER then return the response in a nice and convenient way.

### [LASPAD](#), UGB, Saint Louis — *Assistant de recherche*

July 2017 - December 2018

Develop tools, website. IT councillor. Mostly making LASPAD employees life easier by not only building tools to automate and digitalize their data but also give a hand whenever they need (conference planning, badge making, flyers, even guest picking at the airport)

### [Summa Turizm](#), Diamniadio — *IT Responsible*

September 2016

Handling all that was about technology. I was doing:

- network wiring from my office (the server room) to end devices (printers, IP cameras, Access points)

## SKILLS

I am methodical and well organized in my professional tasks. This allows me to work under pressure no matter how close the deadline is, no matter how big/important the project is, I give myself the means to achieve my objectives while delivering quality work with good practices
